Mission and Vision

Our efforts in developing the collections of the IAWA support the department's mission to build true research collections of manuscripts, books, and images for scholars, students, faculty, and other researchers to use. During the past year interest in IAWA materials, from faculty, students, architects, and scholars, remained steady. We have made IAWA collections a central part of our collection development efforts, our instructional sessions, and our campus outreach efforts. The ability to scan large format materials from IAWA collections has increased our joint efforts to promote the collections and research, as well as expand the department's digital projects and online presence.
